

# Spectral Performance of Grey/Silver 10% Reflective Blind Film

## Notes:

1. This data is film only.
2. Data collected by spectrophotometer in accordance with NFRC standards.
3. Transmission and Reflectance are expressed as a proportion between 0 and 1, it could be as easily expressed as 0% to 100%.
4. This graph shows that the Silver side ( green line ) is more reflective than the Grey side ( blue line ) although both sides are very effective.
