

Spectral Performance for Super 3% VLT Bronze/Silver Reflective Blind film

Notes:

1. This data is film only.
2. Data collected by spectrophotometer in accordance with NRFC Standards.
3. Transmission and Reflectance are expressed as a proportion between 0 and 1, that is it could be as easily expressed as between 0% and 100%.
4. This graph shows that the Silver side (green line) is more reflective than the Bronze side (blue line) although both sides are very effective.
